+62 896–1845–6710 | work.abidalbaihaqi@gmail.com | linkedin.com/in/abidalbaihaqi | abidalbaihaqi.github.io | East Jakarta, Jakarta

I graduated from Vocational High School with a major in Software Engineering. I have experience as a UI/UX mentor in an educational institution and subsequently became UI/UX Division Head. I am a curious individual with a keen interest in learning new skills and tackling new challenges. In addition, I have significant experience as a PJBL (Project Based Learning) UI team member and participated in an internship at a company in digital marketing.

Work Experiences

Full Stack Web Developer • Contract   Aug – Nov 2024
PT Adiba Berkarya Bersama – Pamulang, South Tangerang
- Web Application Development: From initial concept to final implementation, I build web applications from scratch, adding features and fixing bugs to improve performance and scalability.
- Responsive UI Creation: Development of interactive user interfaces using HTML, CSS, and Bootstrap to ensure efficiency and responsiveness across a range of devices.
- This role has enabled me to develop and refine my technical expertise, while also providing solutions that enhance the user experience.

UI/UX Designer • Contract   Sep – Nov 2023
SMK Prestasi Prima – East Jakarta, Jakarta
- Client Needs Analysis: Converting the client's initial description into a detailed design.
- Creation of flowcharts and RAD: The creation of a flowchart and the application of the RAD method facilitate the design of the user interface and user experience.
- Design of the user interface and user experience for the attendance application: The design of the user interface and user experience of an intuitive and easy–to–use school attendance application.

Digital Marketing • Internship   Apr – Jun 2023
PT Mabruka Aisypro Indonesia – East Jakarta, Jakarta
- Digital Promotion: The promotion of brands and services through digital channels, including social media.
- Google Console: Ensured news links were indexed in order to increase content visibility on search engines.
- Website Development: Manage the company's website on WordPress, ensuring that all content meets brand standards. SEO: Implementing search engine optimization (SEO) strategies to improve search rankings and attract organic visitors.

Education

SMK Prestasi Prima – East Jakarta, Jakarta   Jun 2021 – May 2024
High School Diploma in Software Engineering

Organizations

Head Division of UI/UX   Jul 2023 – Jun 2024
SMK Prestasi Prima – East Jakarta, Jakarta
- The Learning System is designed with a 30/70 ratio, with 30% theory and 70% practice, to provide a balance of understanding and skills.
- Certification Target: Each member is encouraged to obtain at least one championship certificate.
- Contribution to Society: Promote member participation in community activities.
- Proposal Quality Improvement: Assisting members in developing effective proposals to enhance their competitiveness in the workforce.

Mentor Division of UI/UX   Jul 2022 – Jun 2023
SMK Prestasi Prima – East Jakarta, Jakarta
- Teaching and Organizing Materials: Develop and implement effective teaching materials and provide guidance to members during classes.
- Identifying Competitive Opportunities: Assisting members of the organization in locating and participating in competitive events to enhance their abilities.

Member Division of UI/UX   Jul 2021 - Jun 2022
SMK Prestasi Prima – East Jakarta, Jakarta
- I gained valuable experience creating UI/UX for a large team project, collaborating closely with colleagues under the guidance of industry experts. This taught me the importance of clear communication, teamwork, and commitment to excellence.
